Further information:

MANDATORY VOCATIONAL THEORETICAL SUBJECTS

Thermal Energetics, Hydrodynamics	100 hours
Measurement Engineering, Instrumentation and Control	100 hours
Auxiliary Devices of Power Plant Units	100 hours
Power Plants	100 hours
Chemical Monitoring in Power Plant Units	100 hours
Environmental protection studies	100 hours
Fire Prevention	100 hours
Power Plant Unit Equipment	100 hours
Operation of Power Plant Units	100 hours

MANDATORY VOCATIONAL PRACTICAL SUBJECTS

Vocational training	100 hours
---------------------	-----------

Filled in by the exam organiser.

Further information (including the description of the national grading method):

The basis of the grading system is a list of vocational and examination requirements compiled in accordance with uniform criteria and structure, issued in the form of legal regulation that includes the following:

- identification number and description of the vocational qualification as specified in OKJ and the relevant FEOR number,
- school and vocational prequalification required for the start of the training, aptitude and vocational competence requirements and prescribed practice,
- the most typical occupation or activity accessible to the holder of the vocational qualification certificate, the short job description, and the list of related vocational qualifications,
- the duration of the training required for the vocational qualification; maximum number of hours; the ratio of theoretical and practical training; the number of vocational training classes in the vocational training school; the duration of initial training period; the possibility of organising a grade examination assessing the efficiency of practical training,
- occupational requirements of vocational qualification,
- requirements pertaining to vocational examination.

The vocational and examination requirements will be classified by the occupational group committees of the National Qualification Register (OKJ) and by the National Council for Vocational Training, and subsequently they will be issued in the form of legal regulations.

Vocational and examination requirements are available at: <http://www.nive.hu>

This certificate supplement was prepared on the basis of the instruction for filling in the Certificate Supplement published on the homepages of the National Reference Point and the National Europass Centre.
