

1. TITLE OF THE CERTIFICATE (HU)

52 5422 03 VILLAMOSGÉP ÉS -BERENDEZÉSI TECHNIKUS

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)ELECTRIC DEVICE AND EQUIPMENT TECHNICIAN
(THIS TRANSLATION HAS NO LEGAL STATUS)**3. PROFILE OF SKILLS AND COMPETENCES****A typical holder of the certificate is able to:**

- independently or under the professional supervision of an engineer, take part in installing, maintaining and operating electricity-powered equipment for producing, delivering, distributing and consuming electric energy;
- take part in developing and producing electric equipment, rotary equipment, transformers and other electric equipment;
- take part in developing prototypes, check preliminary engineering calculations by performing measurements;
- supervise and perform electric fitting jobs in industrial facilities and other buildings in line with the pertaining standards;
- on the basis of related documentation, build control devices of heavy current electric machines and equipment;
- supervise the installation of machines and equipment, commission control devices in line with information contained in the related documentations and operator's manual;
- in the case of failures, perform fault finding as well as repair electric machines, equipment or control devices;
- check conformity with safety and shock protection related stipulations at the termination of fitting jobs, approve of the commissioning of electric equipment and devices;
- relying on his theoretical and practical knowledge, work in positions of assistant planner, designer and shift foreman;
- prepare technical drawings, plans of printed-circuits, develop documentations, write PLC-controlled programs, perform measurements and make technical records using computer software.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

3118 Electrical (power current) engineering technician

(*) Explanatory notes:

This document is designed to provide additional information about the specified certificate and does not serve as a legal certificate of vocational qualification. The format of the description is based on the following documents:

Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: <http://europass.cedefop.europa.eu/>

Grade of Vocational Practice	5																								
Access to next level of education/training To higher education	International agreements																								
Other information concerning the vocational training process																									
Legal basis Act LXXVI of 1993 on vocational training.																									

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Description of vocational education and training received	Percentage of total programme %	Duration (hours/weeks/months/years)
School-/training centre-based	Theory: 70 % Practice: 30 %	
Workplace-based		
Accredited prior learning		
Total duration of the education/training leading to the certificate		2 years

Entry requirements:

- Baccalaureate

Further information:

MANDATORY VOCATIONAL THEORETICAL SUBJECTS

Occupational safety and environmental protection	100 hours
Basic studies in economics	100 hours
Study of materials	100 hours
Technical Drawing	100 hours
Electrical Engineering	100 hours
Electronics	100 hours
Applied Computer Technology 1	100 hours
Applied Computer Technology 2	100 hours
Mathematics for Technical Purposes	100 hours
Knowledge of Related Mechanical Engineering Issues	100 hours
Quality Assurance	100 hours
Electrical machines	100 hours
Electric Equipment	100 hours
Technology	100 hours
Automation	100 hours

MANDATORY VOCATIONAL PRACTICAL SUBJECTS

Basic Practical Training	100 hours
Practice in Electronics	100 hours
Workshop Practice	100 hours
Practice in Measurement	100 hours

Further information (including the description of the national grading method):

The basis of the grading system is a list of vocational and examination requirements compiled in accordance with uniform criteria and structure, issued in the form of legal regulation that includes the following:

- identification number and description of the vocational qualification as specified in OKJ and the relevant FEOR number,
- school and vocational prequalification required for the start of the training, aptitude and vocational competence requirements and prescribed practice,
- the most typical occupation or activity accessible to the holder of the vocational qualification certificate, the short job description, and the list of related vocational qualifications,
- the duration of the training required for the vocational qualification; maximum number of hours; the ratio of theoretical and practical training; the number of vocational training classes in the vocational training school; the duration of initial training period; the possibility of organising a grade examination assessing the efficiency of practical training,
- occupational requirements of vocational qualification,
- requirements pertaining to vocational examination.

The vocational and examination requirements will be classified by the occupational group committees of the National Qualification Register (OKJ) and by the National Council for Vocational Training, and subsequently they will be issued in the form of legal regulations.

Vocational and examination requirements are available at: <http://www.nive.hu>

This certificate supplement was prepared on the basis of the instruction for filling in the Certificate Supplement published on the homepages of the National Reference Point and the National Europass Centre.
