

1. TITLE OF THE CERTIFICATE (HU)

54-522-01 Erősáramú elektrotechnikus

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Electrical engineering technician
(THIS TRANSLATION HAS NO LEGAL STATUS)

3. PROFILE OF SKILLS AND COMPETENCES

A typical holder of the certificate is able to:

- process (cut, drill, cut by machine, saw, bend, file, sand) metal and plastic workpieces;
- prepare electrical and mechanical joints;
- prepare simple electrical block diagrams;
- understand electrical connections;
- perform electrical measurements;
- prepare measurement records and drawings;
- put equipment under voltage;
- disconnect electric equipment;
- carry out power installation of smart buildings;
- carry out electric installation of public and residential buildings, check electric circuits;
- install the electricity distribution system of public and residential buildings;
- install/assemble control devices;
- install/assemble regulating devices;
- implement, install and activate engine controls (engine protection, starting, reversal switches, rpm changing connections);
- perform measurement related to power management;
- perform measurement related to the control of instrument transformers;
- perform measurement related to the control and supervision of power grids and electrical equipment;
- transport, install, put into operation and operate electrical machinery;
- install and operate computer-, microprocessor-, microcontroller and PLC-driven industrial processes;
- use drawing programmes;
- choose electric measuring devices;
- check and measure the state of electrical networks and substations;
- operate and check the security and automatic equipments of electrical networks and substations;
- use electrical appliances, hand tools for basic technological operations;
- comply with and cause others to comply with rules on labour safety, accident prevention, fire and environment protection, as well as provisions concerning the profession and the technology of repairs;
- connect electrical measuring devices;
- connect electrical measuring devices.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

3121 Electrical power technician (energy technician)
3122 Electrical power technician (electronics technician)

(*) Explanatory notes:

This document is designed to provide additional information about the specified certificate and does not serve as a legal certificate of vocational qualification. The format of the description is based on the following documents:

Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: <http://europass.cedefop.europa.eu/>
