

1. TITLE OF THE PROFESSION

5 0713 04 04 Erősáramú elektrotechnikus

2. TRANSLATED TITLE OF THE PROFESSION

Heavy current electrical technician
(THIS TRANSLATION HAS NO LEGAL STATUS)

3. PROFILE OF SKILLS AND COMPETENCES

- run the organisation's energy network and monitor electricity management;
- manage reactive power and size simple low-voltage network cables;
- manage, assemble and operate the control and drive installations used;
- know the electrical installations, power systems, substations, protection systems and transform them, when necessary;
- know the characteristics of the electrical machinery used, troubleshoot and carry out repairs, when needed;
- perform measurements related to electricity management, select and install the necessary measuring instruments, record the results of the measurements, prepare the necessary documents;
- know and apply instruments and the principles of electrical measurement, and comply with electrical safety regulations;
- prepare the technical drawings required for his/her work using a computer;
- be receptive to seeking new solutions and be open to new technological solutions;
- identify risks and hazards and minimise the risks arising from electricity.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

3121 Electrical (power current) engineering technician
3122 Electronics (light current) engineering technician

(*) Explanatory notes:

¹ In the original language. | ² The translation of the designation is provided for information purposes only. | ³ Fill it out if necessary. The certificate supplement provides additional information on the qualification but have no legal value in itself. The format of the description is in conformity with Decision (EU) 2018/646 of the European Parliament and of the Council of 18 April 2018 on a common framework for the provision of better services for skills and qualifications (Europass) and repealing Decision No 2241/2004/EC.
