

1. TITLE OF THE PROFESSION

5 0714 04 01 Automatikai technikus (Gyártástechnika)

2. TRANSLATED TITLE OF THE PROFESSION

Automation technician (Production technology)
(THIS TRANSLATION HAS NO LEGAL STATUS)

3. PROFILE OF SKILLS AND COMPETENCES

- operate and maintain industrial production equipment;
- perform maintenance tasks based on their knowledge of automation, electrical engineering and hydraulics;
- carry out reference replacements for electrical hydraulic and pneumatic actuators in the event of failure of production equipment;
- replace sensors on the basis of technological documentation, set them according to specification, set parameters for programmable sensors;
- carry out the necessary parameterisation of the drive components of production equipment on the basis of documentation and machine manuals, carry out operational tests, and, if necessary, participate in the replacement and adjustment of the electric motors of the equipment;
- commission PLCs (programmable logic controllers) using wiring and control diagrams, and migrate and archive programs;
- know the basic steps for creating a PLC program;
- systematically troubleshoot industrial manufacturing systems by instrumentation and by monitoring and evaluating the characteristics of the control program;
- operate robot cells;
- maintain and repair the flexible assembly system components that connect production equipment and ensure proper material flow.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

3122 Electronics (light current) engineering technician

(*) Explanatory notes:

¹ In the original language. | ² The translation of the designation is provided for information purposes only. | ³ Fill it out if necessary. The certificate supplement provides additional information on the qualification but have no legal value in itself. The format of the description is in conformity with Decision (EU) 2018/646 of the European Parliament and of the Council of 18 April 2018 on a common framework for the provision of better services for skills and qualifications (Europass) and repealing Decision No 2241/2004/EC.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the authority issuing the certificate	Name and status of the national/regional authority providing accreditation/recognition of the certificate Ministry for Innovation and Technology								
Level of the certificate (national or international) NQF level: 5 EQF level: 5 Digital Competence Framework level: 7	Grading scale / Pass requirements Five -grade: 5 excellent 4 good 3 satisfactory 2 pass 1 fail The prerequisite of being eligible to sit for a sectoral basic examination is the successful completion of all the required training courses, or the recognised prior learning should incorporate the requirements of the sectoral basic examination. The prerequisite of being eligible to sit for a vocational examination is the successful completion of all the training courses and the uninterrupted professional practice required. In case the student is required to pass a sectoral basic examination, latter shall be recognised with the following weighting: The result of the basic sectoral examination will be computed into that of the vocational examination with the following weighting: Sectoral basic examination: %, Vocational examination: %								
Certificate number: CXK A Serial number: 123456 Certificate issue date: 2023.11.23	Designation of the theoretical and practical subjects of the sectoral basic examination and the vocational examination and their grades according to a five-grade scale Sectoral basic examination : The examination was passed based on recognised prior learning Vocational examination central interactive <table border="1" style="width: 100%; border-collapse: collapse; margin-bottom: 5px;"> <tr> <td style="width: 80%;">Operation of automated production equipment</td> <td style="width: 20%; text-align: center;">5</td> </tr> </table> project exercise <table border="1" style="width: 100%; border-collapse: collapse; margin-bottom: 5px;"> <tr> <td style="width: 80%;">Installation, inspection and maintenance of automated production equipment</td> <td style="width: 20%; text-align: center;">5</td> </tr> </table> <table border="1" style="width: 100%; border-collapse: collapse; margin-bottom: 5px;"> <tr> <td style="width: 80%;">Result of the vocational examination in percentage</td> <td style="width: 20%; text-align: center;">100%</td> </tr> <tr> <td style="width: 80%;">Result of the vocational examination with grades</td> <td style="width: 20%; text-align: center;">5</td> </tr> </table>	Operation of automated production equipment	5	Installation, inspection and maintenance of automated production equipment	5	Result of the vocational examination in percentage	100%	Result of the vocational examination with grades	5

Installation, inspection and maintenance of automated production equipment	5								
Result of the vocational examination in percentage	100%								
Result of the vocational examination with grades	5								
Access to next level of education/training To higher education	International agreements								
Other information concerning the vocational training process									
Legal basis Government Decree 12/2020 (II. 7.) on the Implementation of the Vocational Education and Training Act, Government Decree 319/2020 (VII. 1.) on the amendment of Government Decree 12/2020 (II. 7.) on the Implementation of the Vocational Education and Training Act, Act LXXX of 2019 on Vocational Education and Training.									

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE SUPPLEMENT

Description of the sectoral basic training and the theoretical and practical vocational training	Distribution of the total number of hours of the programme
Total duration of the education/training	2207 hours

Entry requirements:

- Elementary education
- Occupational health aptitude test: required

Further information:

VOCATIONAL PRACTICAL SUBJECT	HOURS
Basic electrical knowledge	12 hour
Basic mechanical engineering knowledge	12 hour
Analogue circuits	12 hour
Electrical engineering	12 hour
Digital circuits	12 hour
Basics of electrical machines	12 hour
Drive technology	12 hour
Electrical installations	12 hour
Mechanical installations	12 hour
Control engineering	12 hour
Process control	12 hour
Automated production machines	12 hour
Information technology in the industry	12 hour
Pneumatics	12 hour
Pneumatics and hydraulics in the industry	12 hour
Industrial process management	12 hour
Industrial maintenance	12 hour
Industrial information technology	12 hour
VOCATIONAL THEORETICAL SUBJECT	HOURS
Vocational knowledge	12 hour
Vocational foreign language knowledge	12 hour
Basic electrical knowledge	12 hour
Basic mechanical engineering knowledge	12 hour
Analogue circuits	12 hour
Electrical engineering	12 hour
Digital circuits	12 hour
Basics of electrical machines	12 hour
Drive technology	12 hour
Electrical installations	12 hour
Control engineering	12 hour
Process control	12 hour
Automated production machines	12 hour
Information technology in the industry	12 hour
Pneumatics	12 hour
Pneumatics and hydraulics in the industry	12 hour
Industrial process management	12 hour
Industrial maintenance	12 hour
Industrial information technology	12 hour
Continuous field practice	160 hour
Altogether	604 hour
